EMAIL-2

Subject: Eager to Apply for Summer 2026 Software Engineering Internship

Dear Internship Coordinator,

I hope this email finds you well. I'm ***Animesh Sahu***, a first-year B.Tech Computer Science student at Vellore Institute of Technology in Bhopal. I recently stumbled upon your Summer 2026 Software Engineering Internship on LinkedIn, and it immediately caught my eye; I'm genuinely excited about the chance to join **Fintevue Company**.

Through my coursework and projects, I've honed skills in Python and C++ for algorithmic challenges, including matrix computations and Prolog-based reasoning systems. This aligns closely with Fintevue Company's innovative projects, and I'm eager to bring my enthusiasm and problem-solving mindset to your team.

Thankyou so much for your time and I can't wait to hear back!

Best regards,
Animesh Sahu
